Sub - Submission of yearly time- table of phase II, batch 2020-2021 for NMC approval

Respected Madam,

With reference to your mail dated 16 Dec 202, we are hereby submitting detailed timetable of Phase II MBBS batch 2020-2021 along with checklist for your perusal.

Thanks, and regards.

Dean

Dr. R.K.Sharma

D.Y.Patil Medical College, Kolhapur.

DEAN

D Y Patil Medical College
Kasaba Bawada, Kolhapur - 6

Enclosures: -

1. Phase – II yearly time table for batch 2020-2021
2. Second professional teaching hours reflected in actual time table
3. Check-list
4. Clinical posting – Annexure I
5. Student doctor training programme & Skill Lab posting – Annexure II

CLINICAL POSTING – I (4 weeks)

Time: 10: am To 01:00 pm

Sr. No.	Topics	
1	Visit to Urban / Rural Health Training Centre	Functions of UHTC/RHTC staff pattern & job responsibilities
2	CM 2.1 & 2.2 Family study	Types of family, socio-cultural demographic assessment
3	Family study – 1	Community Visit
4	Immunization Programme	Vaccines, National Immunization schedule & Cold chain system
5	Nutritional assessment & Anthropometric measurements	Demonstration
6	Care of Infant – Growth Chart	Case presentation
7	Exclusive breast feeding & Weaning foods	Demonstration
8	Care of ANC mother	Antenatal case presentation
9	Post-natal case of mother & child	PNC case presentation
10	Contraceptive devices	Situation to be given and sex education
11	CM 1.9 & 1.10 Doctor – Patient Relationship & effective communication skill	OPD case
12	Diarrhoea & ARI as a community health problem	Case based learning, ORS
13	Protein Energy Malnutrition	Case based learning
14	CM 4.3 & 8.6 Health promotion & education activities	Demonstration
15	Elementary essential drugs	Visit to drug store, Inventory control
16	Field Visits – 5 1. Visit to water purification plant 2. Visit to sewage purification plant 3. Visit to District public health laboratory 4. Visit to Rehabilitation Centre 5. Visit to Anganwadi (ICDS)

STUDENT TEACHERS LEARNING METHODS & REPORTS - PHASE II

Learning report

What is the Learner Doctor Method?

The Learner Doctor method of clinical training is a learning Program that is part of clinical rotations of the MBBS course that is designed to provide medical students a longitudinal Immersive learning experience in the care of patients in a Supervised setting.

Goals

The Goals of the Learner Doctor program are to provide students experience with longitudinal patient care Functioning as part of the Health Care team

“Hands on” care of patients in the inpatient and outpatient settings.

STRUCTURE

Student is assigned to medical wards and outpatient departments of surgery, medicine, obgyn units. Student will remain with admission unit till 6pm.	Students get oriented to hospital atmosphere & is guided for patient approach taking care of all ethics	Students are guided for better patient doctor relationship	Students are taught to work & a team work
--	---	--	---

Students are taught history taking & clinical examination in phase 1. They will participate in unit rounds, follow patient's progress and under supervision, participate in procedures, surgeries, deliveries. They have to document their observations in logbook and case records.

Students are taught about communication skills with patients & patients relatives

Linking Learning to activity in the learner doctor program

Learning planned	Activity
Data gathering arranging in a meaningful fashion as integral to patient care	Obtaining detailed history and physical and documentation in the case sheet or shadow case sheet in the prescribed format
Critical thinking and analysis	Recording analysis of the patient's problem and arriving at a likely diagnosis from a list of

	differential diagnosis
Team work	Participate in patient rounds and team activities
Team work	Participate in multidisciplinary rounds with nutrition nursing etc
Clinical skills	Participation in ward based and OT based Procedures under supervision
Team work	
Observe minor & major surgeries	If possible, assist in surgery
Self Directed learning	Reviewing the literature based on the patient's problems and presenting that information to support decisions made in the care of the patient
Skills for lifelong learning	
Skill lab training for procedures Basic wound care, basic bandaging, basic suturing, incision & drainage, ATLS	Should be confident to do individually

Caveats for the supervising physician

We Brief students clearly expectations roles about the limits of autonomy in patient contact
Follow institutional policy with regards to access to and documentation in patient records
Introduce students to the patient and obtain permission from the patient for the student to examine and be involved in the care Respect patient wishes if they do not want to a student doctor to be part of their care.

We Ensure that students perform activities on patients only for which they are certified to perform independently or under supervision (do not use this program in lieu of the skills lab)

We ensure that the security of patient & students is an utmost priority. Respect time that is allotted do not ask students to miss their pre-scheduled classes for patient related work In the event of a doubt follow the hospital's rules and regulations always

Program Evaluation

We use Feedback from all stakeholders to improve the program at the institution level. Faculty is provided with an anonymised copy of the feedback from students to help improve their performance. Feedback may be requested by the NMC periodically through the nodal centres for program improvement and course corrections as required we evaluate our students by assessments by term ending exams, osce , clinical viva. We have formative & submittive assements students have log book. A designated faculty member will coordinate activities of the learner, monitor progress, provide feedback and review case record. Logbook should include records of outpatients and case records.

Check List

Sr. No	Item	Yes/No	Feedback
1	Year planner submitted	YES	
2	Annual Academic (theory) Time Table submitted for monitoring/uploaded on Google form/ website within stipulated time	YES	
3	Annual Clinical positing rotation is submitted	YES	
4	Clinical posting sample Time Table submitted for the all-clinical posting as per GMER MBBS Professional year III Part 1 for monitoring/uploaded on website within stipulated time.	YES	
5	Student learner doctor method concept and skill training included in clinical dept sample timetable	YES	
6	Simple excel sheet of the calculation of number of hours to satisfying GMER submitted as per dept.	YES	
7	Are teaching hours for Community Medicine FMT and Clinical subjects represented in the time table with colour codes?	YES	
8	Are teaching hours for AETCOM represented in the time table and spread as a longitudinal program over the year with colour coding?	YES	
9	Competency no TL, methods (lectures, small group teachings, DOAP etc) are mentioned in each slot for all subjects in the time table	YES	
10	Provision of AI topic slots in the time table	YES	
11	Alignment and integration of topic evident in the time table	YES	
12	Provision of feedback, formative assessment Internal assessment and reflection including master time table	YES	
13	Provision of slots for sports and extracurricular activities	YES	
14	Provision inclusion of pandemic module	YES	
15	Provision of subject wise slot for self-directed learning activities	YES	
16	Is the time table feasible and implementable?	YES
